Ohio Chamber Announces 2021 Champions of Business

COLUMBUS, OHIO – The Ohio Chamber of Commerce today announced their 2021 Champions of Business in the Ohio Legislature. Legislators who achieved this distinction have done so by scoring at least 80 percent on the Ohio Chamber 2021 score card, which consists of key votes taken by the legislators that impact the business community and sponsorship of legislation that hinders or bolsters Ohio's business climate.

"I want to thank each of these legislators, particularly those who scored 100 percent," said Ohio Chamber President and CEO Steve Stivers. "We're encouraged by the numbers and hope all of these members will continue to support crucial pro-business legislation in the coming year. To those members who didn't score over 80 percent, we look forward to building on our shared policy interests and working with you in 2022 on legislation that champions free enterprise and Ohio businesses."

Of the 132 members of the Ohio Legislature, 75 members scored at least 80 percent, with 32 of them scoring 100 percent. Please [CLICK HERE](#) for a full list of the 2021 Champions of Business, as well as background on which bills were used to score the list.

The Ohio Chamber is the state's leading business advocate and represents thousands of companies that do business in Ohio. Our mission is to aggressively champion free enterprise, economic competitiveness and growth for the benefit of all Ohioans.
