“I would like to thank Jamie Dimon for speaking at the Ohio Chamber’s 2022 State of Business Event,” Stivers said. “As one of the largest Ohio employers and a leader in the financial services industry, it was valuable to hear his perspective on where he sees the economy headed. While businesses and families have faced a number of challenges over the past few years, Ohio’s future is certainly bright.”

Dimon and Stivers discussed a number of issues during the hour-long conversation including the economic growth during COVID, inflation, workforce issues and the current impact of the war in Ukraine on the economy.

“I appreciated the opportunity to join the Ohio Chamber of Commerce to talk about the important issues facing our country and how Ohio can continue to grow and attract business and talent,” said Jamie Dimon, Chairman and CEO, JPMorgan Chase. “Ohio is not only an important place where we do business, it is home to our customers, clients, employees and community partners. We are committed to helping create a more inclusive economy for all residents.”

They also talked about JP Morgan’s significant investment in the state of Ohio, including more than \$7 million invested in high schools, colleges and universities to provide workforce training that prepares young Ohioans for better paying jobs and the careers of tomorrow.

JPMorgan Chase is one of the state’s largest private employers. The company is proud to employ nearly 2,000 veterans, pay twice the federal minimum wage to entry-level employees, to be a second chance employer, and to provide the nearly 20,000 Ohioans they employ with best-in-class training and education.

The Ohio Chamber is the state’s leading business advocate and represents thousands of companies that do business in Ohio. Our mission is to aggressively champion free enterprise, economic competitiveness and growth for the benefit of all Ohioans.
