COLUMBUS, OHIO – The below statement can be attributed to Ohio Chamber President & CEO Steve Stivers following Gov. Mike DeWine’s signing of Senate Bill 33.

“We thank Gov. DeWine for his swift signing of Senate Bill 33, a top-ten legislative priority for the Ohio Chamber. This legislation modernizes employment poster requirements by recognizing the reality that many Ohio business now operate on more flexible work arrangements, and it will allow hybrid or remote workers to have consistent access to crucial information on their rights in the workplace. Additionally, it eases burdens on employers and will encourage higher compliance rates across all sectors. We commend the Ohio General Assembly for creating and passing this common-sense, pro-business legislation.”
